Wild and Wonderful

If you enjoy the seasons of changing landscape, unique dining, and, of course, friendly people, West Virginia is a great place to live, whether it's a rural or nearby urban setting.

Along with the charm of small towns and cities, our state offers an array of activities, such as snow skiing, whitewater rafting, fishing, mountain biking and more.

If you're looking for something wonderful and exciting, make West Virginia your home to live and work.

"FamilyCare is more than a place of employment. Our health center is actively involved in meeting the needs of the community and facilitating the physician to provide care. FamilyCare has a great support system within the organization to help patients at the time of need such as dietitians, mental health specialists, and social workers. FamilyCare also travels the extra mile extending beyond the exam room to support the community through a variety of projects."

Mary Bailey, MD | Pediatrics

"I joined FamilyCare after working with a private family practice group for seventeen years. The transition to a network of providers and locations has been beneficial for our patients and community. We are able to ensure that our patients have quality resources throughout our centers that allow them to reach their full health potential. By providing patients these resources we can, in turn, better succeed in our mission of building healthier communities in West Virginia."

Robert Johnston, MD | Family Practice
